

The Mindshare Suite individual product descriptions

Mindshare 100500MJ Operator Headset Jack

The Mindshare 100500MJ Operator Headset Jack is an optional accessory for the 100500MAX Audio and Accessory Interface that allows the use of standard dual-prong operator headsets. The 100500MJ is housed in a sturdy, compact metal enclosure with volume control that is designed to be conveniently installed at dispatch workstations. Up to two of the 100500MJ Mindshare Operator Headset Jacks can be used with each 100500MAX Position Audio Interface.
